Event Details

Breakfast Offered by the Hotel. Continental breakfast (EUR 9.60) or full breakfast buffet (EUR 17), to be paid at the door.	Restaurant "Da Capo" Enjoy the exquisite dishes from the regional and international cuisine.	Piano Bar Experience the world of international cocktails and choice drinks, enjoy wines, beer and snacks.	Art Show (Cairyn, Blue_Panther) This year's Art Show again presents a multitude of international artists. See your favorites, bid on whatever you like, and buy art for your home!
Kage's Story Hour (Onkel Kage) From one event to the next! From one tale to the next! The tireless Uncle Kage! Be there to learn about embarrassing officials on misguided endeavors, entitled individuals seeking attention, and perhaps a French airport. Or perhaps something even worse.	Banner Brawl (Fairlight) Join our hosts Shay and Fairlight as they lead two fresh-faced teams of artists into a battle of the pens! After last Confuzzled, the boys are in the lead. Can the girls catch up to even the score? Come and find out! And remember, the canvasses created will be auctioned off for our charity. That's right. Think of the Galgos. And Shay. And how sad they'd look should you miss this event!	Fursuit 101 (Sparky the Wolf, Sithy) Fursuiters, spotters, non-suiters... Everyone is welcome to join this panel! We will talk about tips and tricks for performing in fursuit, how to handle a fursuiter as well as how to take proper care of your fursuit, get some fresh ideas on how to develop your fursuit's character, and much more. Listen to the stories shared by some of our seasoned fursuiters, and, most importantly, let's have fun fursuiting.	Fursuit Group Photo (Thalian) The fursuit group photo will be shot in the Main Stage Hall right before the fursuit dance. After the photo has been taken, we will open the doors for the other attendees and kickstart the dance with more suiters than there have ever been. PLEASE NOTE: The official fursuit group photo will NOT be part of the parade. It is a separate event right before the fursuit dance!
Meet the Guest of Honor (GOH) (Peter S. Beagle) The Guest of Honor at this year's Eurofurence is Peter S. Beagle, award-winning author of stories such as Tamsin and The Last Unicorn and screenplays for The Lord of the Rings and Star Trek. He is also a poet, lyricist and singer/song writer and much much more. In this informal panel you can meet him and hear him talk about his life's work. Feel free to ask questions or simply come and say hello.	Fursuit Game Show Preliminaries (Ateklar, Aetobatus, Adrixan) See the Conbook page 30 for signup information and details! While you don't have to be a Hollywood stuntman to participate, if you are worried that you might break a carefully manicured claw, then this event isn't for you this year! If you have multiple suits, bring the one that can take physical action too.	Far From Fear (Marie Markmann) Come meet this year's charity Far from Fear. For the first time the charity of Eurofurence is not only present at the convention, but is also giving a talk on who they are and what they do, as well as giving you interesting information about Galgos. Meet the people with the large hearts and their cute dogs - an informative interactive panel where you can ask them any questions. Far from Fear is looking forward to answer them and chat with you.	Fursuit Photoshoot (Thalian) Just like last year, the studio will be open on three days. The registration for the photo shoot will open one hour before the actual shooting on each day. Just enroll in the list and get your estimated timeslot. Then you can suit up and come back about 10 minutes before your timeslot starts, which will minimize waiting times. If you have any questions, just ask the queue managers, which will be available at the entrance of the studio throughout the shooting.
2, the Ranting Gryphon (2) Back on stage. Back in the mood.	Fursuit Friendly Dance (Misc DJs) Like last year, a lot of talented DJs are going to tear up the dancefloor on the main stage and in the bar. Main Stage Be there, and have fun! This main stage event is especially suited for fursuiters.	Artists' Lounge Do you like spending your evening around other artists, drawing and exchanging techniques? Then this social event, which takes place every evening, is the right place for you being all creative!	Fursuit Photoshooting (Thalian) Just like last year, Thalian's photo studio will be open again to get you some amazing pictures posing in your fursuit.

Dance Central offers over 100 numbers of popular dance tracks. So come get some moves on either solo, against or with your fellow furs.</p>	<p>Return of the Hyper Anatomy Panel (Gideon)</p> <p>Howdy! I shall be doing my brand of teaching with lots of humor and some sexiness tossed in for fun again this year. We will go over any anatomy questions you have, along with the history of hyper art, why we find it sexy, and how to do it right... or at least fake it properly! I hope to see you there!</p>
<p>Your First Furry Convention (Kage, Gyroplast, Dhary Montecore)</p> <p>If this is your first visit to a Furry convention, you probably have a lot of questions. How do I talk to artists? What should I do to maximize the fun? What should I avoid? How do I explain what this is to people? What are all these things they gave me with my badge? How can I make friends with 2 the Ranting Gryphon? And why are there so many rules? Join us for a talk and some helpful advice from people who have been where you are. We will help you to avoid the pitfalls and make Eurofurence 18 the most fantastic experience of your life!</p>	<p>The Photographers Eye (Alex „Khaki“ Vance)</p> <p>Good photos can be taken with any equipment. The trick is to *know* your equipment and how to use it. In this session we'll discuss the photographic attitude. Rather than discussing broad topics like exposure and composition, we'll discuss how you can train your eye to find good light, depth and texture, how to put your models at ease, and some simple</p>	<p>The Last Unicorn (GOH) (Peter S. Beagle)</p> <p>Perhaps the most famous work of Peter S. Beagle is The Last Unicorn (1968). The book has sold over six million copies in twenty languages and influenced many later writers of fiction. The animated movie from 1982 has been seen by hundreds of millions of viewers and in 2010 a comic book adaptation was released. Come hear about the magical universe of Peter S. They will tell the whole story on how and why this story became so successful, and where it is going from here.</p>	<p>Ten Habits of a Successful Author (Kandrel)</p> <p>Got the bite to write? Feeling the urge to spout prose? Hear from author Kandrel how you can turn that motivation into a solid story. Learn how to avoid stereotypes, and how to follow the rules (and more importantly, when and how to break them!). Appropriate for both new and veteran writers and story crafters.</p>
<p>Puppet Building (Tioh)</p> <p>Do you want to learn how to make your own puppet? Join Tioh, accomplished veteran of puppet construction and creator of the main cast of this year's Pawpet Show, in this panel where he will show you the whole building process - from the basic sketch to the completed puppet.</p>	<p>Convention War Stories (Super Sponsor) (Kage)</p> <p>Many convention-goers remain blissfully unaware of the horrors that sometimes take place behind the scenes of a convention. Hear some of the secret testimony of the miserable souls who survived these terrifying ordeals.</p>	<p>Girl's Café (Sinea)</p> <p>There's no denying it: Girls are a minority in the fandom. So let's pipe up and have a meeting just for us girls, no boys allowed! Feel free to join us for a fun, relaxing and informal chat about what you experienced so far being a girl in our growing fandom and share your stories. This is supposed to be an interactive meeting, don't be afraid to voice your thoughts and share what's on your mind.</p> <p>Don't be shy, join us for a fun and interesting talk with your fellows!</p>	<p>Artists Lounge (Con Ops)</p> <p>Do you like spending your evening around other artists, drawing and chatting about techniques? <p>Computer Animation for Beginners (Cairyn)</p> <p>Ever admired the state of the art computer animations?</p> <p>Ice Age, Up, Over the Hedge... clearly, it's easy, just done with some sliders, and the computer does everything anyway! Well, sort of true, but it's about five thousand sliders, and when you are just starting, you're hit over the head with half a million technical terms that seem to make no sense at all. This presentation will introduce you to the general process of computer animation, explain the most important terms and techniques, and reveal what is and is not the purpose of the many programs involved in animation.</p> <p>Suitable for everyone who intends to have a practical look at animation, who wants to get some information before installing a 3D application at home, or who simply wants to appreciate the art of computer animation.</p>	<p>Planning Pictures (Blue_Panther)</p> <p>Ever thought that the background you added later in the process of your time consuming masterpiece just doesn't quite fit the rest of the picture? Ever started to draw an elaborate ensemble of various figures just to note the edge of the paper will cut off their feet once you get round to draw them? We all know what we could do to prevent such mishaps: Plan our pictures, study our settings and construct our characters. Blue_Panther is here to show how this tedious planning before the actual sketch or drawing can be indeed just as fun as the actual piece. This panel should help to show how patience, observation, rough sketching and a bit of (the odd) knowledge of composition can improve your work and greatly aid with the creation of yet another masterpiece.</p>	<p>Furries in the Press (o'Wolf)</p> <p>For several years now the furry fandom experiences great awareness from mainstream media. This has led to various reports on a range of topics, with changing objectives and of different qualities. As the fandom is still growing the frequency of media requests will increase even further and we have to handle these in a competent way. This workshop gives an overview on what the press expects, the requests Eurofurence has received, the reaction to them and a strategy to build up media relations which help us to maintain an excellent reputation among journalists as well as their audience.</p>	<p>Game Corner (Xaneroath)</p> <p>Come by and play some board or card games with other furs! Whether you are looking for a fast-paced game to take a short break, or if you're planning to spend an evening with a complex strategy game, you've found the right place! We offer a variety of games to choose from, and always welcome other games people would like to bring along. If you want to find participants in a game or want to check what's going on, keep an eye on the hashtag #efgc12 on Twitter, where you can post the status of hosted games.</p>
<p>Warhammer 40K Tabletop Corner (Ryudar)</p> <p>In the grim darkness of the far future... there is only war. Watch or join the forces of our Furry Commanders in epic battles between the imperium of man, the legions of chaos and the endless alien hordes. Learn how to get started with the Games Workshop® - Warhammer 40K Tabletop Game and how to create, assemble and paint your own unique armies!</p>	<p>Artists Lounge (Con Ops)</p> <p>Do you like spending your evening around other artists, drawing and chatting about techniques? Then this social event, taking place every evening, is the right place for you to be creative!</p>

<p>Computer Graphics and Animation (Cairyn)</p> <p>Originally a very exclusive and limited thing, computer graphics and animation has become affordable and available for every dedicated artist. Where home computers could only render static geometric chessboard examples some decade ago (and needed all night for it), today's sophisticated programs and multicore powerhouses do it all: from fluid simulation and hard body physics to fur and cloth in glorious global illumination techniques. But all is not sunshine and roses. The tools have become complex and vast, and the professional competition calls for ever-more impressive graphics and mind-boggling sparkliness. There are a few computer artists in the fandom, and both still images and animations have been produced.</p>	<p>Rock'n'Rome – The Concert (The Savannah Revolution)</p> <p>Eurofurence welcomes "The Savannah Revolution", a collective of highly talented furry musicians, singers and songwriters, who have teamed up exclusively to present you this very special show. Supported by guest stars Fox Amooore and Alexander James Adams, they will take you on a journey through the history of furry music ranging from classics first heard on the early "Furry Fantasies" CDs and "The Fauna Project" up to a full range of exciting new songs that have never been performed in public before. Equally broad will be the variety of styles including sweeping ballads, folk rock, classic pop, hard rock, ska, punk, metal and lots of genre-defying goodness!</p>	<p>Furry Writing for Beginners (GOH) (Peter S. Beagle)</p> <p>Have you ever thought of writing a furry-themed story but you were not really sure how to go about it or if anyone would read it? Or have you already tried writing and have experiences to share or want to learn from a professional writer? Perhaps you wonder what makes a good story and why great stories are great? This is an interactive workshop in which you can get tips and pointers on how to write, support on getting started, and learn some tricks on what makes a good story from the accomplished and award-winning writer Peter S. Beagle. He will share his knowledge of the writing process, so come along to share your experiences and opinions.</p>	<p>The Fursuit Parade (Mystifur)</p> <p>With roughly 45% of our guests being fursuiters, Eurofurence takes pride in being one of the major furry conventions with the highest fursuiter attendance. Having that many critters in an indoor parade though, the con hotel would just explode and turn into one giant ball of fluff. To prevent this from happening, the parade will again be held outside.</p> <p>PLEASE NOTE: The parade will NOT start after the fursuit group photo. The fursuit group photo is a separate event this year!</p>
<p>The Fursuit Game Show (Ateklar, Aetobatus, Adrixan)</p> <p>So you think you have seen the EF Fursuit Gameshow, and it is too tame? Well, guess again!</p> <p>We are back this year with some brand new ideas and quite a few changes!</p> <p>First off, we kept the team-idea: the competition is between teams of two, so be sure to pair up and be ready!</p>	<p>Pawpet Workshop (Fairlight)</p> <p>Learn the basics of puppetry while listening to the pawpet show behind-the-scenes stories of seasoned pawpeteer Fairlight. Feel free to bring your puppets along, as this will be a hands-in lesson.</p>	<p>Great Furry Stories (GOH) (Peter S. Beagle)</p> <p>Come along to hear about some of the great furry stories in literature and how they inspired Peter Beagle in his writing. Stories discussed will include The Jungle Book and The Wind In The Willows. This is an interactive panel so feel free to bring along your own examples of great furry stories and some thoughts on how and why they inspired you. We are hoping for a lively discussion!</p>	<p>Fursuit Game Show Briefing (Ateklar, Aetobatus, Adrixan)</p> <p>See the Conbook page 30 for signup information and details!</p> <p>To prevent the hassle of getting all winners from the preliminaries to the stage at the same time and keep them there we will open up a room. The briefing will not take three hours per team!</p>
<p>Dance Central (Shiro)</p> <p>Dance Central offers a complete new dance experience, that requires you to move your hands, feet and everything in between. Dance Central offers over 100 numbers of popular dance tracks. So come get some moves on either solo, against or with your fellow furs.</p>	<p>International Snack Exchange (Gwyndolium)</p> <p>There weren't only exotic sweets and treats back on those old days when the Romans populated the streets. Curious what other countries of our age have to offer when it comes to all those little sweet joys of life? This panel will introduce you to a lot of tasty morsels you likely never heard of but will miss soon. This is an open panel for everyone but we kindly ask you to bring something from your own region or country along.</p>	<p>Animatronics for Fursuits (Tioh, Furvan)</p> <p>Twitching ears, snarling muzzles, swishing tails, movable eyelids over glowing eyes, light effects... mechanical and electronic effects can help make your fursuit come to life in ways you never imagined possible before. Join Furvan and Tioh in this presentation to see how such effects work.</p>	<p>2 "Thank You" –Panel (2)</p> <p>Only for those who got an invitation.</p>
